THE MESSIANIC LUMINARIES

The Glory of the People of Israel

COME AND MEET THE MESSIANIC REMNANT

In the late nineteenth century, several prominent Jewish minds from orthodox backgrounds, trained in the finest orthodox and chasidic Yeshivot, came to faith through unique encounters with Messiah. From out of the pre-holocaust world of European shtetles, a testimony for Yeshua blazed forth.

First Fruits of Zion has resurrected the voices of these teachers, and we are honored to introduce them to a new generation. These fathers of the modern Messianic movement speak authoritatively from a Jewish perspective on the Gospels and our faith, providing a light to greater Judaism and an encouragement for the body of Messiah.

Come and be introduced to some of these men—devoted followers of the Messiah from the past that will become a voice to our movement today. You'll be encouraged and strengthened!
