

The Two Ways

APOSTOLIC GUIDANCE FOR GENTILES AND MESSIANIC JUDAISM

What it would be like to find a lost book from the New Testament Era?

In 1880, something like that happened when the *Didache* was discovered inside an ancient codex in a monastery library in Istanbul. The *Didache* is a manual of practical living instructions intended for the early disciples of Yeshua. Written by the early Jewish believers in Yeshua, it contains teaching that claims to have its origin with the apostles and represents a time when Yeshua faith was still firmly rooted within Judaism. First Fruits of Zion author and teacher Toby Janicki has completed a fresh commentary on the *Didache* from a Messianic Jewish perspective. He will be presenting material from the book and introducing the importance of this ancient Messianic work for both Jewish and Gentile believers today.
